

## DID YOU KNOW...

The stunning growth of digital data is affecting organizations across multiple industries. However, financial institutions face a special challenge: finding a secure and scalable way to manage the ever-increasing volume of check images.

Viewpointe's Check Archive is among the world's largest storage environments, holding the majority of all check images captured in the U.S. Our customers rely on our national trusted archive for outstanding capacity, retrieval speed and exchange performance levels.

## THE VIEWPOINTE CHECK ARCHIVE CAN HELP YOU:

**Control Costs:**

- Avoid capital expenditures by reducing the need to purchase, maintain and upgrade expensive hardware
- Enjoy predictable, per-unit pricing based on your actual storage usage; there is no need to maintain excess capacity

**Operate Efficiently:**

- Consolidate your multiple disparate storage locations without affecting the way your team interfaces with your content
- Enjoy the latest in on-demand content retrieval capabilities with a rate of up to 3,500 items per second
- Rest assured knowing that our world-class archive is fully redundant and securely located in disparate areas throughout the U.S.
- Simplify your digital storage with a solution that supports access to/retention of active and inactive content

**Manage Risk:**

- Retain control of your organization's data retention and destruction decisions while gaining Viewpointe's support in managing data according to your policies
- Locate and access important content to help comply with eDiscovery initiatives
