

DID YOU KNOW...

Viewpointe's cost-effective check image clearing and settlement services enable financial institutions of all sizes to fully automate image exchange and settlement.

WITH VIEWPOINTE'S IMAGE EXCHANGE AND SETTLEMENT SOLUTIONS, YOU CAN:

- Avoid the hassle and high cost of network changes, upgrades and technology refreshes
- Conduct image exchange and settlement in one convenient place
- Tailor check image presentment and settlement processes to your business needs
- Access the nation's most advanced settlement system with an average uptime of 99.99%

Viewpointe Pointe2Pointe® and ImageShare™

For institutions not using the Viewpointe archive, our Pointe2Pointe service enables check image exchange between financial institutions. Both internet and dedicated telecommunication line options are available.

ImageShare allows Viewpointe archive customers to conduct image exchange by quickly and securely sharing images that are stored in the Viewpointe archive, removing duplicate processing and storage needs.

Thrupointe

Our Thrupointe service enables clearing of items through Viewpointe to partnering exchange channels such as The Federal Reserve and Endpoint Exchange, including images, data and IRD print instructions.

National Settlement System (NSS)

The Viewpointe NSS is a real-time, Internet-based net settlement system that provides reliable settlement for all of your electronic transaction types.

Access the nation's most advanced settlement system with an average uptime of 99.99%.

Avoid the hassle and high costs of network changes, upgrades and technology refreshes.

Automated Settlement Entry (ASE)

ASE helps financial institutions automatically post presented files for settlement using the NSS, eliminating the need to import, upload or manually key settlement entries.

Financial institutions using the ASE service are able to set business rules to help time their settlement entries according to deadlines set forth in their image exchange partner business agreements.

This service is available at no additional charge to Viewpointe image exchange customers settling through the Viewpointe National Settlement System.

Viewpointe Image Integrity®

Viewpointe Image Integrity is specifically designed to help financial institutions manage the risk associated with check image and data mismatches that can occur during check processing.
