

VIEWPOINTE NATIONAL SETTLEMENT SYSTEM

Reliable Settlement No Matter Where You Exchange Payments

“

The Viewpointe NSS settles transactions between financial institutions for three large image exchange networks, various independent clearing houses and for direct connections throughout the U.S.

For financial institutions that require it, Viewpointe offers real-time web services that integrate with all aspects of the NSS.

Viewpointe's cost-effective settlement services enable financial institutions of all sizes, across multiple image exchange providers, to fully automate image exchange and settlement.

With Viewpointe's settlement solutions, you can:

- Avoid the hassle and high cost of network changes, upgrades and technology refreshes
- Perform settlement, using the image exchange provider(s) of your choice, in one convenient place
- Tailor settlement processes to meet your business needs
- Access one of the nation's most advanced settlement systems

NATIONAL SETTLEMENT SYSTEM (NSS)

The Viewpointe® NSS is a real-time, Internet based, net settlement system that provides reliable settlement of all of your electronic transaction types. The NSS settles over \$6 trillion annually for approximately 1,500 financial institutions. It works seamlessly for three large image exchange networks, as well as various clearing houses across the country.

- The NSS currently performs 24 exchanges per day, starting as early as 8 a.m. and ending as late as 3 p.m. CT
- True same-day settlement is provided
- The NSS settles forward presentment items and returns and has a robust adjustment system
- Standardized reporting is available to users through an ad hoc process, or users can simply subscribe and receive them automatically via email

VALUE OF VIEWPOINTE

Viewpointe enables organizations to better leverage their investments for the long term. We are grounded in our service-first orientation, providing a premier service that helps you meet your business objectives to mitigate risk, reduce costs and increase agility across your enterprise.

Our unique business model combines hardware, software and unmatched expertise to provide guidance on best practices, strategy and technology solutions.
