

ABOUT VIEWPOINTE

Driving the Power and Promise of Information Management

SOLUTIONS

ONPOINTE FOR MESSAGING

Provides a scalable, automated approach to capture, analyze and manage your electronic communications in our private cloud.

ONPOINTE FOR FILE SHARES

Brings governance and control to unmanaged content across enterprise repositories.

ONPOINTE FOR ENTERPRISE APPLICATIONS

Securely manages information generated by project teams and departments to effectively power your business.

ONPOINTE FOR STRUCTURED DATA

Reduces the cost and risk associated with legacy applications and improves active database performance.

ONPOINTE FOR PRINT STREAM & IMAGE

Helps modernization and granular management of client information for transaction-heavy organizations.

ONPOINTE EDISCOVERY

Provides an optimized interface to help minimize the risk, costs and business disruption associated with the discovery process.

With one of the most trusted and proven managed cloud archives in the United States, Viewpoint® is a selected provider to many of the nations largest, most complex companies since 2000.

For more than a decade, Viewpoint has successfully helped many of the world's most esteemed and most complex organizations manage, secure and monitor their data via our private cloud managed services.

Today, we offer information management and governance solutions and hosts one of the largest national archives of check images and information providing end-to-end check image clearing and settlement services for our customers.

Our OnPointe® solution delivers a cost-effective approach to securely manage the lifecycle of your company's most important and sensitive information.

We deliver cost-effective solutions for storage, processing and settling of payments to financial institutions of all sizes, including:

PAYMENT ARCHIVE

Among the world's largest storage environments, holding the majority of all payment-related content in North America.

IMAGE EXCHANGE

Provides a secure, cost-effective and efficient means of exchanging check images through our hub-and-spoke network.

NATIONAL SETTLEMENT SYSTEM

Enables financial institutions of all sizes, across multiple image exchange providers, to fully automate image exchange and settlement.

Viewpoint represents the best of the best in financial technology and service providers and has been named to the prestigious IDC FinTech Rankings: Top 100, since 2006.

Viewpointe enables organizations to better leverage their investments for the long term. We are grounded in our service-first orientation, providing a premier service that helps you meet your business objectives to mitigate risk, reduce costs and increase agility across your enterprise.

Our unique business model combines hardware, software and unmatched expertise to provide guidance on best practices, strategy and technology solutions.

VALUE OF VIEWPOINTE

EXPERIENCE

With one of the most trusted and proven managed cloud archives in the United States, Viewpointe has been a selected provider to many of the nations largest, most complex companies since 2000.
